

DIMAH AIDAR

ABOUT

Dima Haidar, French Lebanese multitask designer.

The intention of my designed items is based on the exchange of cultures and know-how, its ambition is to enable craftsmen from different cultures to create all together a contemporary piece which illustrates the theme of movement, the dialogue and the encounter.

The creative process is the outcome of a constant intellectual and artistic layering inspired from artisan and materials that talks to the designer's own sensibility.

Every design combines past and present into a single piece reflecting a moment in time.

Sincerely
Dima Haidar
